

Patient friends and family feedback for May 2025

These responses were collected from the friends and family test results and from feedback forms provided in the surgery and after appointments. All patients receive the friends and family survey via text message after their appointment at the surgery.

We had some supportive messages from patients in May, patients felt cared for by our team and have passed personal thanks to everyone for the care they have received over the years. We had special thanks to our reception team for being so helpful with regards to medication queries.
